Declaration of AI tools

HaveanyAItoolsbeenusedinthecreationofthis report/ assignment?

No ✓ Yes

If no, please sign below

If yes, please fill out the rest of the declaration form.

I take the full responsibility of the content of this declaration. I hereby confirm that I have crosschecked all sources and data that has been used in this report, and I understand the arguments being presented. I have not used sources that I do not deem as trustworthy.

I have used the following AI tools for my report/assignment

Claude and ChatGPT

This is how I used AI tools in my report/assignment (up to 200 words):

Brainstorming ideas and angels for the analysis. Generating first drafts for Tasks 1-5, as requiered by the assignment. These drafts are reproduced unedited in Appendix B and critically evaluated in Appendix A, and the analysis in the main text is writen by the group. Used for spell checking, grammer correction and language polishing. Suggesting possible sources, all of which were checked against the original publications before use.

Examples:

"Based on initial brainstorming, I used Copilot to outline different possible responses. Then, I used Google Scholar to search for sources that either supported or challenged these responses."

"I used ChatGPT to summarize and explain paragraphs." / "After this, I summarized the results and formulated paragraphs before asking ChatGPT to improve the flow of the text."

✓ I am familiar with NTNU's regulations on artificial intelligence. I declare that any use of AI tools is explicitly stated i) directly in the report or ii) in this declaration form.
